The National Digital Literacy Programme (NDLP)

1. The NDLP was launched in March 2020 to help students **strengthen their digital literacy and acquire digital skills** needed to navigate an increasingly digitalised world.
1. Under the NDLP, every secondary school student will **own a school-prescribed personal learning device (PLD)**. Students may use funds from their Edusave Account to pay for the PLD.

Intended Outcomes of the PLD Initiative

The use of the PLD for teaching and learning aims to:

**Support the
Development of Digital
Literacy**

**Support Self-Directed
and Collaborative
Learning**

**Enhance Teaching and
Learning**

Device Management Application Installation

- The iPad Device Management Application (DMA) solution, **Jamf**, will be installed on all students' devices to provide a safe learning experience for students. The DMA will be **funded by MOE**.
- DMA will be installed after the collection of the device. Students will be guided on the installation.
- The installation of DMA applies to both devices purchased through the school and any student-owned devices that parents/guardians opt for the student to use in lieu of the school-prescribed PLD.
- The DMA will be uninstalled from the device when students graduate or leave the school.

After-School DMA Parent Options

1. After-School DMA Parent Options provide parents with the flexibility in managing your child's/ward's use of PLD after school hours.
2. The following table shows the After-School DMA Parent Options.

Default	Option A	Option B
In-school DMA settings will continue after school hours	DMA settings can be modified by Parents/Guardians after school hours	DMA will be inactive* after school hours

Frequently Asked Questions

<https://go.gov.sg/aesipadfaq>

Frequently Asked Questions for National Digital Literacy Programme (NDLP)

1. Why does the school require students to use an iPad?

In determining the choice of device, the school has taken into account the affordances of the device in enabling students to learn effectively, technical specifications of the device, such as weight and battery life and integration with the school infrastructure and staff training.

iPads are chosen for their variety of affordances, including seamless learning experiences alongside existing teaching and learning technologies such as the SLS, Google Suite for Education Apps and Microsoft Pro Plus. It is also a relatively lightweight and portable device that offers students convenient learning on-the-move. A full charge of the battery typically allows students to work on their PLDs for the entire curriculum hours.

2. Can my child bring a MacBook instead?

No. The inking function is very important for students. We need students to be able to write and draw on the device

3. I already have an existing iPad/accessories at home. Can I choose not to go with the school-prescribed iPad bundle?

Yes. However your existing iPad needs to be able to support the Apple Pencil. You will need to get a compatible stylus and keyboard for your child as well. The iPad also needs to be passed to the ICT Dept for a factory reset. DMA will be installed to manage the iPad.

Parents who opt not to purchase must ensure that their existing iPads meet the following conditions:

- Compatible with Device Management Application (DMA) software
 - Processor: A14 Fusion or better
 - Capacity: 64GB or higher
 - OS version: iPadOS 18
